

ALPHA 500 SINGLE BRUSH WASH MACHINE

ALPHA 500 SINGLE BRUSH WASH MACHINE

Three Driving Positions

Operated from the ground

OPTIONAL:
With operator on board

OPTIONAL:
With seat for operator on board

The Entire Wash Takes Less Than 10 MINUTES.

The Alpha 500 is an effective, low-cost upgrade from manual washing. The machine is equipped with a user-friendly steering bar and hydraulic drive wheel so any user can easily maneuver the wash machine.

The Alpha 500 is powered by either a diesel motor or a 24V battery pack. This allows the machine to be used in any location, indoor and outdoor. Trained technicians will deliver and assemble your equipment and operators can be trained to use the machine in less than an hour. The Alpha 500 is an ideal solution to quickly reduce the labor required for washing your fleet of vehicles.

Designed for Any Working Environment

FOAM BRUSH

Available with soft foam brushes

A POWERFUL YET GENTLE DAILY WASH

Foam brushes safely clean and polish your high quality paint finish. Safe to use on all finishes, including decals and wraps.

Alpha 500 System Features

Diesel Motor Unit

Batteries 24V

Silencer Unit for Diesel Engine

Steering Controls

Hydraulic Traction with Variable Speed

Twin Wheels for Greater Stability

Automatic Detergent Dispensing Device

Water Tank

The InterClean Model

Product Leadership - By far the most comprehensive heavy-duty wash equipment product line. Substantial R&D spend ensures existing products remain best-in-class and new products are developed to address changing industry needs.

Technical Expertise - A team of talented and experienced people provide a fact-based, consultative approach to selecting, designing, building, and installing wash equipment.

Dedication to Support - A nationwide distributor network and trained technical personnel provide ongoing support to deliver industry-leading responsiveness and equipment uptime.

"Our mission is to provide a complete range of solutions for heavy-duty washing needs. Our focus on engineering and innovation results in high-performance, sustainable, and cost-competitive solutions for a variety of markets and customers."
